

HOW TO CARE FOR FAIRVIEW PLANTED TREES & SHRUBS

WWW.FAIRVIEWGARDENCENTER.COM

WATER

The most important part of your plants success is water! Newly planted plants only get as much water as provided to them by you and the environment because they haven't grown substantial roots yet, thus making water critical for the first 18 months after planting!

SLOW & STEADY

Give plants a steady soak, (slow and deep) every three days and rechecking every 2 to 4 days. Watering should be more frequent during drought or heavy wind situations. Use a slow trickle open hose end at the base of the plant.

ADEQUATE RAIN

Rain is only sufficient when 1 - 2" has fallen, and if adequate moisture was directly on root ball. Remember roots are confined to a small area. Watering needs to be at the base of the plant.

REQUIREMENTS

Keep in mind that plants have different water requirements. Check with a member of our staff if you are unsure about a plant.

TEST

Not enough water is harmful for the tree but too much water is bad as well. Moist is different than soggy and you can judge this by feel. A damp soil that dries for a short period will allow adequate oxygen to permeate the soil.

ENJOY

Your trees and shrubs have been expertly planted. They have been given the proper soil amendments and starter fertilizer to keep them growing strong. Now it's time to enjoy!

GUARANTEE

FOR TREES & SHRUBS

WWW.FAIRVIEWGARDENCENTER.COM

PLANTS

We will guarantee our trees and shrubs to be the best nursery stock available, true to name, up to grade, and in healthy growing condition. Provided plants receive proper care and sufficient watering, we will guarantee the plants for up to one year from your purchase. Credit will be given for the purchase amount of the plant material. This can be then used to purchase another of the same product or any product in the store. This is a one-time replacement credit. You must bring in a piece of the plant along with Fairview's receipt to receive credit. No cash refunds will be given.

INSTALLATION

Installation is guaranteed in full for 3 months. After the first 3 months installation labor is guaranteed at the discounted rate of \$6.50 per gallon size for 1 full year after planting. Please remember that plants are living entities and need care as such. Success with your new plant is tied directly to the amount of care it is given. Our Policy is a 50-50 partnership with the customer. It is imperative that plants receive proper care, so as to minimize stress. If the plant is not dead but suffering from shock due to improper handling, you will be advised as to how to nurse it back to health - it is always good to call before you remove a plant.

NOT INCLUDED

The following items are not included in our guarantee:

- Plants in raised pots or planters.
- Plants receiving insect, animal, chemical or mechanical damage.
- Plants damaged by an act of God, including drought and excess rain.
- Plants subject to weather conditions not typical of our area.
- Plants that have been transplanted.
- Bulbs, seeds, perennials, annuals, or houseplants.
